Category: Rugs & Carpets > Area Rugs > Shag Rugs

Brand: Nuvia Home

Price: €139.99

Short description:

High-pile shag rug with a soft polyester surface and dense underlayer. Appropriate for bedrooms, reading areas, and low-to-moderate traffic living rooms.

Key specifications:

- Size: 160 × 230 cm
- Material: 100% polyester
- Construction: Power loomed
- Pile height: Approximately 35 mm
- Backing: Woven polyester with latex dots
- Pattern: Plain with subtle two-tone yarn variation
- Main colour: Silver grey
- Shape: Rectangular
- Weight: Approximately 9.8 kg
- Care: Vacuum with a high-pile attachment; do not use a rotating brush
- Suitable for underfloor heating: Yes
- Anti-slip underlay: Recommended
- Indoor use only

Availability: In stock — 36 units

Warehouse location: SE-MAL, Malmö

Replenishment lead time: 21–30 days

Internal handling notes:

Long pile can conceal small objects and requires routine inspection in homes with children or pets. Furniture legs may leave temporary compression marks. The rug should not be placed where a door drags across the pile.

Common customer-service checks

Before approving a replacement or exchange, verify:

1. SKU and dimension match the original order.
2. Product construction is compatible with the customer's intended location.
3. The returned item has not been machine washed when the care instructions prohibit washing.
4. Any reported shedding, pile shading, edge curling, or colour variation is assessed against the product construction.
5. Outdoor products have not been stored wet or exposed to permanent weather conditions.
6. Carpet-tile orders are checked by tile count rather than area-rug unit count.

Standard dimensional guidance

- **Small rugs:** Typically below 120 × 180 cm.
- **Medium rugs:** Approximately 140 × 200 cm to 180 × 270 cm.
- **Large rugs:** Approximately 200 × 300 cm and above.
- **Runners:** Narrow rectangular products generally between 60 and 90 cm wide.
- **Round rugs:** Diameter is used as the primary dimension.
- **Carpet tiles:** Sold individually unless the product listing explicitly specifies a carton quantity.

Underlay guidance

Underlay is recommended for most loose rugs on laminate, tile, polished wood, vinyl, and other smooth floors. Underlay improves stability and can reduce wear caused by repeated movement. For hand-knotted, handwoven, high-pile, and natural-fibre rugs, a breathable underlay is preferred.

Returns and storage

Rugs must be stored dry and protected from direct sunlight. Rolled products should remain on a suitable core where possible. Folded storage can result in permanent crease lines, especially in latex-backed or high-pile products. Natural-fibre rugs must not be stored in unventilated plastic wrapping.
